Wallpaper Magic is a desktop wallpaper manager that helps you set your background images with minimal effort. The application supports many popular graphic formats, such as BMP, JPG, PNG, and TIF. You can import images in the main window using either the built-in browse button or drag-and-drop support. You are allowed to add single or multiple files at the same time. The program gives you details about each added item, such as its format, name, and resolution. The tool comes with a bunch of features that makes it very easy to collect pictures from a wide range of sources, such as the Internet, newsgroups, digital cameras, or scanned images. Basically, any photo that can be displayed on your computer screen can be used as wallpaper with the aid of the 'paste from clipboard' feature. Set your

---

wallpapers automatically. Once you are done with adding the files, you can start to tweak the settings of the application. Wallpaper Magic can be set to display the images randomly or sequentially, change the wallpaper after a specific amount of time (e.g. every 5 minutes, each day) and at Windows startup, and much more. The utility gives you the possibility to scan your folders for additional wallpapers, making sure that you will not miss any of your favorite pictures. You can choose to search in a specific location and after the image type or its size. Additional features Wallpaper Magic comes with a wide range of customization options. You can run the app at Windows startup, set it to display tips, and much more. It offers you the possibility to hide the desktop icons, set them to be transparent, email the current wallpaper, and many others. Also, the program supports a list of shortcuts for most of its functions to make it easier to

---

use. Final remarks To sum it up, Wallpaper Magic is a useful desktop manager that can be set to automatically display a large number of images. Wallpaper Magic Features:

Wallpaper Magic Features: Good news! This tool makes setting up your wallpapers easy. With Wallpaper Magic, you can import images from folders, the web, and more. To set images as your wallpaper, simply click on "Import Image" and select your desktop wallpaper. After you select your image, it will be pasted into the Wallpaper Magic window, where you can choose the kind of grid to display your photos and see details about each image. When the images are set, Wallpaper Magic
